Please consider these environmental concerns for the Bradford Township area; specifically Milner Road - a dead end road with one way access. This road is also a fire lane to Turtle Creek. Blocking this road with rail would prohibit emergency vehicles to access our property, human and livestock in case of a medical emergency. This would also block future children from getting to school & us getting to work. Wildlife habitat would be destroyed. It would eliminate the ability to harvest deer, turkey, etc. which I hunt to provide food for my family. Contaminate soil, water, air quality for crops, wells and quality living. Property value would decrease, crop land and profit from its sales would negatively affect my parents and local farmers.

NOTE: When an individual chooses to submit an Environmental Comment or some Other Submission, his or her personal contact information is considered public information and is shared within and outside of STB without additional authorization.
