25 August 2008

SEP 10 2008

I am veteran, age 85yrs old, our age group have fought and worked our buns off to make this nation a better place to live. I have watched all the Corporation and Companies sell out to foreign countries and my government has done nothing to stop it. This railroad buy out is doing nothing for residents of Will County and if allowed to go through, will be putting school children and fire departments in Harms Way, the railroad buy out is another Company my government will be letting go to a foreign Company. For the sake of our grandchildren, lets all get together and stop this sale, before the whole nation is nothing but distributors and run by Foreign Companies, lets save this great nation from foreign buyers, our future generation will have nothing left in our great United states unless our elected officials put a stop to it.

Thank You,

Joseph G. Every
