

NO TRAINS!

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

hello my name is Sarah Liedlich and I am 16 years old and have been a resident of Barrington Illinois all my life. I am severely disturbed by the idea of adding this train traffic to my home town. As I mentioned earlier I am 16 years old, I am also a Junior at St. Viator high school in Arlington Heights which has subjected me to the traffic that working adults have to deal with. This is already an issue in our day to day lives and the addition of those trains would make the situation almost unlivable. Not only is the situation inconvenient, but it's unsafe and not good to our environment. There have been several accidents involving trains in the last year in Barrington and the solution to this problem is definitely not to add more trains. And yet again there is something else out of that. If anything in this day and age we need to be helping making our environment cleaner not make it worse, this addition will add to the pollution in our world and over

YOUR INPUT IS IMPORTANT! all cause great harm to this amazing
