Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

The concerns expressed by the residents are valid concerns that need to be addressed NOW and not wait until after an acquisition to prove it out.

The trains would be too long & block critical access to key community, healthcare and public safety services.

I lived in an area of Chicago where this is true. Trains that were miles long would block all major N/S & E/W roads leaving the area SW of Midway airport stagnant.

If you want to know the real impact of this rail schedule in this geography - see doors to doors at 63rd & Harlem.

For once look at facts and make the choice that does not create gridlock, devaluation & an overall negative impact.

It was untenable than a whole unacceptable now!

Do what is best for our communities
