Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

I am a medical doctor (family medicine) and have lived in Barrington (village - now Joliet) for 33 years. To get around - to & from my office & to/from the hospital I have to cross at least 2 of the 3 or 4 crossings of the EJE RR tracks. Long frequent freight trains would interfere with my work as a physician and would potentially jeopardize the health of my patients / let alone cause great inconvenience to my already busy schedule.

This is a residential community with 7 schools / school buses transporting children to & from school. We already have a lot of traffic. We tolerate current trains on the EJE but cannot begin to deal with what would happen with numerous freight trains going through if Canadian National would purchase the EJE rails. We already have a lot of commuter trains throughout the day - please,

YOUR INPUT IS IMPORTANT! No more freight trains.
