I am against the sale of EJ&E. Some have said that the communities effected by this transaction are upset due to the NIMBY (Not In My Back Yard) syndrome. I dispute this statement. I feel we have the EIMBY (ENOUGH IN MY BACK YARD!) syndrome. We have the contamination from Blackwell Forrest Preserve land fill (at one time listed on the EPA Superfund list), silt in the DuPage river contaminated with Thorium, Peaker Power Plant, etc. Isn't that enough????? We think so. There have been countless "impact studies" for various reasons. Even if all of them came to the conclusion that acceptable impact would occur, commutatively MAJOR impact occurs!!!! ENOUGH IS ENOUGH! Please do not approve the sale of the EJ&E railroad to CN.
