Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

I have attended numerous rallies + gatherings to find out as much as I can about the CN acquisition of the EJ&E railway. Everything I have learned leads me to the same conclusion — this acquisition MUST not take place! I am a married mother of a 3 month old son. My main concern is for the safety of my family. In order to reach nearby hospitals, we must cross the EJ&E line. If this acquisition were to occur, the response time for EMS vehicles will be drastically increased meaning more time for serious injury to occur! Also, I am a small business operator in the neighboring town of Lake Zurich. I have many patrons that must cross the EJ&E line to get to my office. If travel time to my office increases, these patrons will go elsewhere to receive similar services. My income + lifestyle will be directly affected. My concern goes out to other small business owners in the area as well. This acquisition will bring commerce in Barrington to a halt once traffic + congestion in the area increases. Lastly, I am concerned about the direct negative impact that this acquisition will have on our environment: from noise to increased air pollution and water pollution. PLEASE put our citizens first!! This is a foreign company looking for American taxpayers to make them Richer — WE MUST NOT

YOUR INPUT IS IMPORTANT! LET THIS HAPPEN!!
