1 I'm very concerned for my
2 community by the impact the train and the
3 number of trains that will be coming into
4 the center of our town every day. We
5 already have really heavy traffic during
6 peak times during the day where it's very
7 hard to get into the downtown area, and I
8 really can't even begin to imagine how bad
9 that kind of traffic will be with the
10 number of trains that are being proposed.

11 I think it's really sad that the
12 state or the national government -- I'm not
13 sure whoever it is that's in charge of
14 this -- would even consider bringing the
15 Canadian National train system here. It
16 will really be a huge deterrent to the
17 community and the health of the community
18 in so many ways. It's just another way
19 that -- it's another indication of how
20 people get lost when there are economics
21 involved, and often the economics of the
22 situation win over people and families.
