Transcript:

I would just like to comment that I'm sick and tired of private corporations thinking that they're going to have taxpayers bill out their pet-projects so that the Candian National would like to buy the Elgin, Joliet, Eastern Railway then the Candian National should assume any costs it would take to upgrade this to their desired specifications without any inconvenience to the motoring public and for the safety of our citizens. Also, in the blocking intersections for increased periods of time. Once again, Canadian National wants to buy it, then let them assume all the responsibility that comes with it. Thank you.
