Issue or Comment:

Trains can not be increased without putting railroad profits into railroad under & overpasses. An Plainfield raising the trains after Route 126, they can flow over Airport - Lockport Road and over Kenwick Road. This is needed to protect the Lakeland Rookery. Building on wetlands to add a set of tracks would leach chemicals into the rookery's Lake Kenwick. Raising the trains allows access to the forest preserves. Using concrete walls to raise the tracks contains a 2nd set of tracks on the present foot print. Forest preserves of Will County want the tracks path kept 25 feet wide to protect the wet lands.
