Re: Docket No. 35087

Dear Ms. Quinlan:

I am a Metra Southwest Service commuter. The line I ride is constantly delayed by freight trains.

I am writing to urge the approval of the sale of the EJ& E line to Canadian National Railway. If the sale goes through, most freight trains that now cause delays and tie up traffic in the Chicago area would be re-routed to the outskirts of the metro area. This would free up the tracks and help Metra trains get commuters to work on time.

I hope you will take the plight of all commuters that are trying to get to work on time into consideration and approve the sale to Canadian National Railway.

Sincerely,

Joan Quinn
