Re: **Docket No. EP 770(1) – Urgent Issues in Freight Rail Service---Railroad Reporting**

Dear Chairman Oberman, Vice Chairman Hedlund, Board Members Fuchs, Primus, and Schultz,

Per the Surface Transportation Board's May 5, 2022 decision, Union Pacific is respectfully enclosing its thirty-ninth weekly report on the following performance metrics:

1. Weekly Average Terminal Dwell Times for the eleventh to twentieth largest terminals;
2. Weekly Average Number of Train Starts Per Day (sorted by train type);
3. Inventory breakdown by privately-owned, TTX-owned, and railroad-owned cars;¹
4. Weekly average recrew rate and rate for each "operating division;"
5. Industry Spot & Pull percentage for the system and each "operating division;"
6. Weekly average number of local (L) trains cancelled per day and the aggregate number of local trains cancelled per week, broken down by cause (crew and others);² and,

¹ Union Pacific is actively auditing this metric. Union Pacific may amend the data for this metric later after completing its quality control review.

² Union Pacific does not track data surrounding locomotive power in this metric. Therefore, this value is "0" on the spreadsheet.
