Our house backs onto the park that runs along Montgomery Road and the noise from trains is already an issue during the evening and at night - 3 or 4 in the morning.

I can't imagine 4 times the number of trains that we already have. It would make our location pretty unliveable. When trains pass it is so loud regular speech is impossible. It is hard to hear the TV in the summer when windows are open.

Besides noise a four times increase in the number of trains would make pollution a problem.

Please don't let Canadian National buy EJ&E.

I am also concerned about the effect of train vibrations on my house. If so many more trains are passing through it is bound to have a great effect on our walls.
