Re: STB Finance Docket # 35087

This project would impact Barrington negatively. Long freight trains going through our community would halt the flow of traffic north and south, as well as east and west. Emergency vehicles (fire, police and ambulance) would be unable to respond in a timely manner to all areas of the town. The main public safety building is south of the E.J & E tracks; the nearest hospital is north of the tracks.

If hazardous materials would be transported, by rail, through our community, our citizens would be at risk in case of chemical spills.

As forty year residents of Barrington, we request that the acquisition by Canadian National be denied.

Thank you,

Surface Transportation Board
