

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: August 28, 2008

I am against the sale + acquisition of the Elgin, Joliet + Eastern Railway company by CNRC because of environmental reasons. Besides it will create a lot of traffic + noise. Right now when the railways pass by Route 59 or downtown you have to wait or take alternative streets. We don't want more aggravations. Why can't we find some clean alternative ways + not get advantage of the poor people.
