

CN | EJ&E

Date: 8-27-08

As a mother of 4 I am terribly concerned of the impact in my community the sale of the F&E to the CN Railway will have

My concerns are as follows:

The increase in Rail Traffic along this line will directly impede me from access to my childrens Schools.

It has a very large chance of keeping emergency vehicles from protecting my family (Police, Fire Ambulance.)

It has a guaranteed chance of a catastrophic accident (chemical, oil spill)

It will have a ~~other~~ large Environmental
Pollution Increase that will have a negative
impact on my family's health

I truly believe our Government has dropped the ball by letting this go so far
