S. Victoria J. Rutson, Chief
Section of Environmental Analysts
Surface of Transportation Board
395 E. Street S. W.
20423-0001

Dear Ms. Rutson:

It is our understanding that through the purchase of additional railroad companies by Canadian National our community of Frankfort, Illinois will be greatly impacted. In my subdivision Prestwick, we do not have any streets to go around the tracks that are to the south of the development. We only have dead end roads and cul-de-sacs. The increase of trains to possibly 28 trains per day would have a tremendous negative impact on traffic, the environment, safety and the community as a whole.

Please give serious consideration to not purchasing these additional railroad companies without looking into other alternative routes.

Sincerely,

Pam & Mike Melnyk
590 A timber Lane
Frankfort, Illinois 60423

P.S. Our home backs up to the
tracks - cannot imagine
the noise increase!
