I wish to express my complete opposition to the selling of the EJ&E Railway to the Canadian National Railway. The most important reason not to sell of course is the very reason thousands of families have moved to the Chicago suburbs, tranquility! Our very way of living will be forever changed with the sale of this railway with increased noise and congestion not to mention the potential for hazardous accidents. I plead to those in power to consider what is most important in the Chicago area, families, not moving products for a Canadian company. These families are what make this city what it is. Many families (including my own) will begin moving out of these suburbs to farther reaching neighborhoods in search of the peace and tranquility we currently enjoy. Thank you for your thought and consideration in this all important matter. I urge you to truly think about the ramifications to all of the families along this railway.
