We strongly oppose the proposal of Canadian National's possible purchase of rail lines through Barrington Ill. The proposal calls for a change of running 26 trins a day versus the present 3. This will ruin our community, lower of property values, disrupt traffic to impossible congestion, in particular to school buses taking our children to schools throughout the area. Also, noise pollution, to say the least! We implore you to please review thoroughly this proposal and realize how much damage it will do to not only our community, but most likely many others along the routes. This is not a win-win solution for anyone!
