Transcript:

I had previously uh commented on the uh purchase of this EJ&E Rail Line by Canadian National, I am definitely in favor of it, I believe that the traffic that will be routed, or re-routed will be routed and re-routed to areas of a lesser population than they currently go through, which will increase the uh traffic flow within the densely populated center core of the Chicago metropolitan area and not necessarily impact the outer core as badly. Also, that will decrease the amount of cars that will have to wait for trains to pass, and therefore should reduce the pollution. Ah, I don't not believe that the people against the uh purchase are against it because of sound factual reasons but, because they have a not in my backyard attitude, and I therefore would like to make sure that my vote to let the purchase happen is recorded. Thank you
