I don't understand why Frank Patton would want to keep his financial backers of the Great Lakes Basin Railroad a secret. If he plans on taking our land, we at least have the right to know everyone involved. Thousand of people have been worried sick about losing their farm, their home, and their land for over a year now. Releasing the names of the GLBR's financial backers would give everyone a small piece of mind. I am asking that the STB deny the Motion for Protective Order.
